### **DETAILED ACTION**

1. This action is responsive to papers filed on 10/15/07.

#### ***Response to Arguments***

2. Applicant's arguments, see Remarks, pages 7-11, filed 10/15/07, with respect to claim 1 have been fully considered and are persuasive. The 35 USC 103(a) rejection of claim 1 has been withdrawn.

#### ***Allowable Subject Matter***

3. Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

4. Claim 1 is allowed as indicated by the Applicants in the Remarks, pages 7-11, filed on 10/15/07.
5. Regarding claim 11, as indicated in the office action mailed on 12/28/06, none of the prior art teach or fairly suggests the limitation of "a gate-off line extended in the second direction, arranged in the first direction and adjacent to the gate lines, the gate-off line outputting a gate-off signal to the first recognition section", in combination with the other limitations of the claim. The prior art of Morita, already of record, discloses an image recognition apparatus

comprising a first and second recognition section and the prior art of Kamiko, already of record, discloses an image recognition apparatus comprising a plurality of sensing signal output lines, a plurality of gate lines, a plurality of pixel areas, a first recognition section and a bias line.

However, neither Morita nor Kamiko disclose a gate-off line extended in the second direction, arranged in the first direction and adjacent to the gate lines, the gate-off line outputting a gate-off signal to the first recognition section, as disclosed in the limitations of claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
